RBNC comes to you!

Creature Feature

RBNC will bring several live animals to your classroom, from arachnids to turtles. It is an experience your kids won't soon forget!

- $100 for up to 25 students
- $200 for 25 to 80 students
- 1 hour program

Eco-Kit Adventures

Includes hands-on activities and one-on-one learning with an experienced field guide in your classroom.

- Designed for approximately 25 students
- $100 per presentation
- 1 hour program

Nature Fairs

Fun science stations for kids at your location! Station themes can be live animals, butterflies, earth rocks, renewable energy, insects, and much more. Pricing is determined by duration and activities.

RIVER BEND NATURE CENTER

RBNC

Connecting People to Nature

Educational Programs

Dinosaur and Fossil Fun

Dig into the past and explore the world of dinosaurs, and fossils to learn about past ages of the Earth and explore the rock cycle

Critter Connection

View skulls and pelts and make tracks and jaws to learn about native animals, dentition, protective coloration, predation and habitat

Nature Detective

Make a nature exploration tool bag to take on the trail to investigate tracks, insects, plants, trees, birds, and much more

Renewable Energy

Learn about renewable energy and how it can benefit the environment. Explore the ways in which nature recycles resources and ways in which we can recycle

Custom Programming

Available upon request.
Email info@riverbendnaturecenter.org.
Our educators will create a program specifically tailored to meet the needs of your students.

All About Butterflies

Investigate butterfly life cycle, anatomy, senses, defenses, and host plants

Inspecta Insects

Observe insects close up with a digital scope, learn about life cycles, anatomy, and habitats, and head out on the trail for an insect scavenger hunt

Down by the River

Explore a riparian ecosystem at the Wichita River using instruments and observation to measure temperature, pH, humidity, transparency, wind speed and direction
